SOAK IT UP

Here's how to make the bathroom
the best room in your house.

With a few creative tile choices and a daring design move here and there (yes, hang that chandelier above the tub!), you can turn your *blah* bath into a sophisticated, spa-like retreat—not to mention increase your home's resale value. To get you started, we rounded up bathrooms guaranteed to inspire. Plus, we chatted with the pros about tile trends and found the best wallpapers for a quick and easy powder room refresh. Ready, set, *relax*... • by JULIE DUGDALE

Clean Slate

“We had to reimagine the Victorian house to work for a modern family,” says architect Caroline Wilding, who orchestrated the update of this 1883 Highland charmer for Design Platform (she’s since opened her own firm, Construct Design and Architecture). The 90-square-foot shower area, which Wilding tucked into one of the home’s three, angled top-floor gables—is the perfect example. She covered the walls and ceiling in elongated subway tile, a waterproofing strategy that gives the space a clean look. Three little kids, two showerheads, and one waterproof room with a cozy, modern feel? Bliss.
